

PureWaterClub UV Systems & Accessories

Specification Chart

Product	UV Filter, 6Watts
Model Name	OPP-UV6W
Input Voltage	110V/220V .50Hz
Input Ampere	.162A
UV Lamp	G6T5-6W
UV Output	1.7W
Sterilizing Capacity	1GPM
Water Temperature	32°F-104°F
Outside Dimensions	1.9 x 11"
Connections	1/4" Push-In

The PureWaterClub ultraviolet water disinfection lamp is a great addition to any reverse osmosis or filter system to help reduce giardia, cryptosporidium, coliforms, bacteria, viruses and other biological pathogens. The end cap illuminates to give a visual confirmation that lamp is on. Available in 1/2 gpm and 1 gpm flow rates.

NOTE: Replace UV Lamp every 12 months to ensure UV intensity for maximum protection
